SERVICES FOR ADULTS WHO HAVE AN INTELLECTUAL / DEVELOPMENTAL DISABILITY

NEW HORIZONS COMMUNITY DAY SERVICES

SERVICES THAT INSPIRE GROWTH

We provide an array of services for adults who have an Intellectual/Developmental Disability.

Our services provide a variety of experiences that inspire growth and empower those we serve to live a full and meaningful life. Services are available to Adams County residents who are 18 years of age or older and who have been diagnosed with a Developmental Disability.

THE WORLD OF WORK

Our employment services enable consumers to reach their vocational goals. For those who desire community employment, our vocational placement and support services encourage employment success. Our in-house work opportunities enable consumers to earn a paycheck while developing work skills.

NEW EXPERIENCES

Social/recreational opportunities enable consumers to enjoy a meaningful day filled with experiences and activities designed to increase skills of independence, increase self-confidence, and self-esteem.

Activities are community-based. They are developed around the interests of those we serve and are person-centered, focusing on the interests of the individual.

SELF-EXPRESSION - THE ARTS

Participation in arts activities enable consumers to express themselves through dance, song, and the visual arts. Our **Unique Harmony** choir and dance troupe and our **Arts on the Horizon** visual arts program are favorite activities!

HELPING OTHERS ... COMMUNITY SERVICE

Volunteer service enables our consumers to "give back" in a meaningful way. Consumers in our **Unity in the Community** group deliver Meals on Wheels and books to the Homebound, walk dogs at the Humane Society, ring bells for the Salvation Army, assist area food pantries, and assist with adaptive equipment drives. The **Aktion Club**, a service club affiliated with the Kiwanis Club, undertakes a number of service initiatives to assist others.
